

IV JORNADA CIENTÍFICA IBEROS

INFO ABOUT THE CITY

<http://en.wikipedia.org/wiki/Lugo>

Population: 99000.

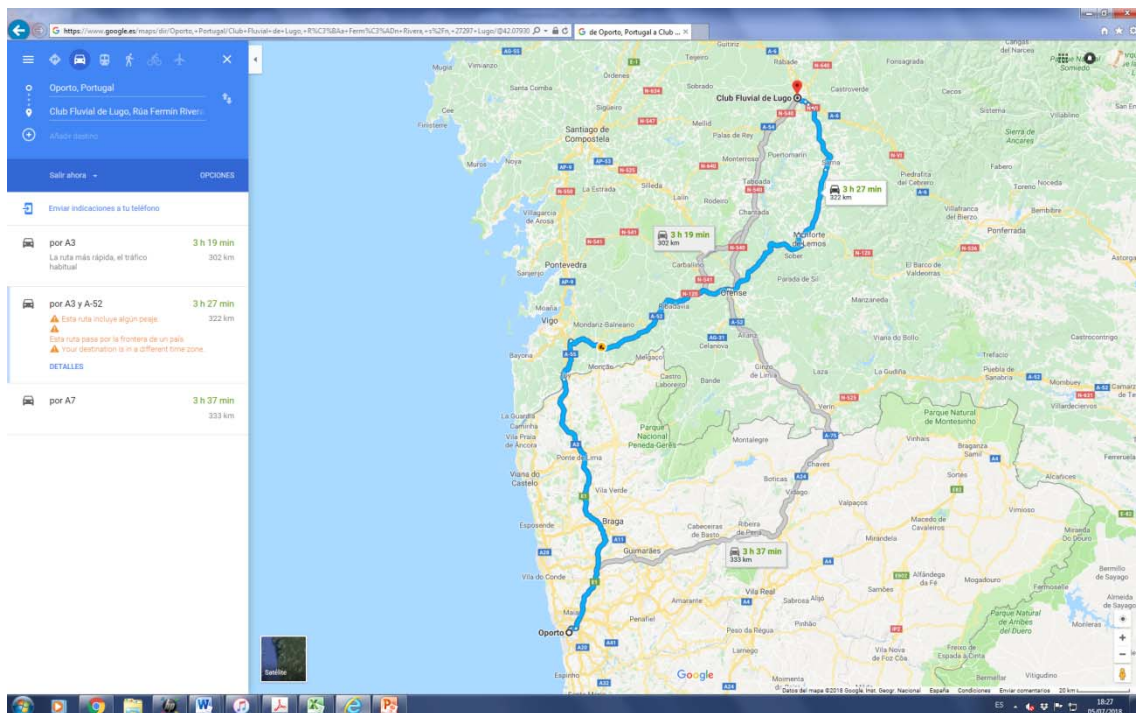

Oceanic climate (umbrella).

Completely intact Roman Wall.

TRAVEL RECOMMENDATIONS

Santiago de Compostela and **A Coruña** are around 100 km. approximately to Lugo. Santiago is communicated with Lugo by a toll highway and La Coruña by a free highway. The drive duration is approx. 65-90 minutes.

Vigo is around 200 km. and **Porto** around 300 km. We recommend drive by the free highway A-52 to Ourense and there avoid N-540 (no maintenance) and drive by the CG-2.2 to Monforte de Lemos-Sarria-Lugo. Another option is to use the AP-9 toll highway to Santiago-Coruña, and then A-6 free highway to Lugo.
